

*Comments on Washington State's Early Learning and Development Benchmarks*

The Office of the Governor, the Office of Superintendent of Public Instruction (OSPI), and the National Center for Children and Families want your comments and input of the Preliminary Review Draft of the Washington State Early Learning and Development Benchmarks. The preliminary review draft is being widely circulated to ensure that the Benchmarks are meaningful and appropriate for families, early learning programs, educators and communities across Washington State who play a vital role in caring for and teaching young children.

This comment period is taking place between November 8, 2004 and February 28, 2005.

You will be asked to provide feedback on each of the five domains of development presented in the Benchmarks, then to provide general feedback on the overall document.

Your response is very important to us. It will be combined with the responses from hundreds of other Washingtonians and will be used to revise and improve the Benchmarks before they are published.

Your feedback is crucial to these efforts, so please take a few moments to complete this survey.

Please mail in the completed survey to:
